

## Christian CND Prayer Diary – November 2024

November can be a dark and sombre month in which we remember people who have gone before us. For some it is a time to remember soldiers who died in war and conflict. For some it is a time to renew our efforts for peace.

### Pray with us

Let us love the Lord with all our hearts, with all our souls, with all our minds and with all our strength. And let us love our neighbour, all people, everywhere.

May our love of God and of our neighbour, continue to inspire us to work for a world without nuclear weapons that bring fear and death. Instead let us bring hope and true peace.

We ask the Lord to send labourers to help with this work so that we can share the message of nuclear disarmament ever more widely.
